Source: BC Parks Attendance and Revenue System, extracted December 6, 2024. This is an interim report, which means that attendance data collection and verification is ongoing and final reported attendance may vary from the above numbers. ¹Attendance data is gathered to monitor visitation patterns, evaluate performance, and inform the management of BC's protected areas. Limited resources mean data is recorded in select parks, so provincial attendance figures are estimates. ² Areas with no data, or categories that are not applicable are denoted with a "-" symbol. ³ Camping fees are collected online or in person by Park Operators.
