Viewpoint	Trail	Waterbody
Parking	Provincial Park Boundary	Mountain
	Highway	Gate

Caution

Wildfire in the Park has produced many hazards. The hazards have been reduced along the main trail network. Travel off the main trail system has an increased level of risk. You can reduce your level of risk by:

- ☐ remain on the identified trail network
- ☐ wait for favourable weather, lowest risk is during calm winds and no rain or snowfall
- ☐ travel quickly to reduce exposure time
- ☐ if trees are actively falling, leave the area or take shelter
- ☐ only camp in designated areas
- ☐ travel carefully, contact with roots or trees may cause a tree to fall
- ☐ avoid steep slopes - falling trees and loose rocks may slide downhill
