## OTTER LAKE PROVINCIAL PARK Purpose Statement and Zoning Plan

Otter Lake Provincial Park is a 53 hectare area on Coalmont Road about 32 km northwest of Princeton. The park is composed of two separate areas, the day use area on the south end of Otter Lake in Tulameen and the campground on the west-side of the lake about 5 km north of Tulameen.

The **primary purpose** of the park is to provide a range of destination camping and lake-oriented outdoor recreation opportunities in a natural setting.

The park's campground is part of a system of camping and fishing destinations in the Merritt-Princeton area catering to tourists from the Lower Mainland and the Southern Interior. The park is readily accessible from the Coquihalla Highway and the Connector. The campground has 45 campsites, trails, a boat launch and an undeveloped beach. Activities include camping, fishing, water-skiing and exploring the Tulameen area's mining history. The day use area is very significant to locals and the tourism economy of the area. It is the destination summer recreation spot in the Coalmont-Tulameen area for picnicking, swimming, windsurfing and beach opportunities.

The **secondary purpose** of the park is to protect its forest and lake values typical of the southwest part of the Thompson Plateau.

The park is one of the smallest protected areas in the Southern Thompson Upland Ecosection. It contributes a small portion of the very under-represented IDFdk2 biogeoclimatic subzone/variant. No CDC sites have been recorded. No species at risk are known to be present.

Known Management Issues	Response
The day use area plays an important role	Investigate the potential to transfer the day
for the town but adds little value to the	use area to a local interest.
provincial park system. The site is	
important to the town's tourist industry.	
The town's boat launch is adjacent to the	
site and nearby is the popular former Kettle	
Valley Railway right of way used by	
walkers and bike riders. Turning over	
management of the site would allow the	
community to better integrate it with the	
community's other recreation attractions.	

## Zoning

The area of the park east of the Coalmont Road is zoned Intensive Recreation to provide camping and lake-oriented recreation opportunities (approximately 25 hectares or 49% of the park). The remainder of the park (approximately 26 hectares or 51%) is Natural Environment zone to protect the natural values.

Representation       Southern Thompson Upland – contributes only 0.2% of the overall provincial protected area system representation of this very poorly represented ecosection (only 1.62% protected) IDFdk2 – contributes 2.75% of the overall representation of this very poorly represented subzone/variant (only 0.49% protected).
