## KAMLOOPS GOAL 2 PROTECTED AREAS MANAGEMENT DIRECTION STATEMENTS - GOAL 2 BINDER APPROVALS PAGE

### Forward

This binder contains 32 management direction statements developed under the direction of the Kamloops Land and Resource Plan Implementation Table and BC Parks. The government designated these protected areas in May, 1996. The 32 management direction statements provide strategic direction for these protected areas. Protected areas' roles, strategies and objectives will not change extensively over time. Management actions, implemented through operations plans, however, will change as priorities, funding and support resources come available.

### **Purpose of Management Direction Statements**

Management Direction Statements provide strategic management direction for all protected areas that do not have a full management plan. MDS do not negate the need for future, more detailed management plans. Management Direction Statements also describe protected area values management issues and concerns; management strategy focused on immediate priority objectives and strategies; and, directional statements from other planning processes. While strategies may be identified in the MDS, the completion of all these strategies is subject to funding and funding procedures. In addition, all development associated with these strategies within the protected area is subject to the BC Parks Impact Assessment Policy.

**PYRAMID CREEK FALLS PARK**  
**MANAGEMENT DIRECTION STATEMENT**

**I. Introduction**

**A. Setting and Context**

The 13 hectare Pyramid Creek Falls Park protects an impressive waterfall on Pyramid Creek visible from Highway 5 (Yellowhead) and the Canadian National Railway. It is situated 260 kilometers north of Kamloops and 30 kilometers north of Blue River on Highway 5 (Yellowhead).

This protected area was recommended through the Kamloops LRMP process and formally established on April 30th, 1996 as a provincial park through Order-in-Council under the *Park Act*. The park was then designated in Schedule E of the *Park Amendment Act, 1997*.

This Management Direction Statement is intended to provide direction and guidelines for managing Pyramid Creek Falls Park for the foreseeable future.

**II. Protected Area Values**

**A. Conservation**

- waterfall from hanging valley above the North Thompson River
- old-growth mixed cedar-hemlock above the canyon
- potential for occurrence of species of botanical interest in spray zone

**B. Recreation and Tourism**

- visible from Highway 5 (Yellowhead) and Canadian National Railway

**C. Cultural Heritage**

- CN trains used to stop for passengers to take photos
- otherwise unknown

**D. Significance in the Protected Areas System**

- protects an impressive physical feature on the North Thompson River

- P57 Pyramid Creek Falls Park
- P62 Tsintsunko Lakes Park
- P63 Walhachin Park
- P64 Wire Cache Park

### **III. Other Land Uses and Interests**

#### **A. Existing Tenures**

- Park designation under the *Park Amendment Act* ensures that all existing liens, charges, and encumbrances other than those applying to commercial logging, mining or energy exploration and development will continue to be authorized through issuance of park use permits. This policy recognizes all existing land act tenures, water rights, trapping licences and other legal tenures and rights.

#### **B. Adjacent Patterns of Land Use**

- Canadian National Railway forms the western boundary with undisturbed North Thompson River lowlands beyond
- powerline and access road crosses the creek above the falls

#### **C. First Nations Interests**

- Management of the park will require ongoing consultation with the North Thompson Indian Band to incorporate First Nations interests.

#### **D. Other Agency Interests**

- the park will be managed in close co-ordination with various resource agencies, particularly BC Environment and Ministry of Forests.

#### **E. Private and Public Stakeholder Interests**

- power development proposals have been made in the past

### **IV. Management Issues and Concerns**

#### **A. Integration with Other Land Use Planning Processes**

This management statement, future management plans, and all resulting management actions will follow the intent and criteria set out by the Kamloops LRMP for the Pyramid Creek Falls Park.

#### **B. Consultation and Future Planning**

Planning and management of the park will conform to the goals, objectives and guiding principles as set forth in the Provincial Protected Areas Strategy. BC Parks is accountable for planning, administration and management of the park through application of the laws, policies and regulations granted under the *Park Act*. BC Parks will coordinate with other agencies, the LRMP table, various public planning groups and First Nations in amending the MDS or developing management plans for all of the new protected areas arising from the Kamloops LRMP.

This Management Direction Statement has been reviewed and approved in principle by the Kamloops LRMP implementation team.

### **C. Role of the Park**

The primary role of Pyramid Creek Falls Park is to protect the special landscape feature and visual setting of Pyramid Creek Falls. The falls are best viewed at a distance from the site, from various points in the valley bottom, and terrain constraints prevent development of safe public access to the site.

### **D. Zoning**

The zoning plan as shown on the adjoining page is preliminary and reflects the intent of the LRMP recommendations for Pyramid Creek Falls Park. The Park is zoned as **Natural Environment** to maintain the area in a natural condition

### **E. Management Strategies and Objectives**

In addition to accepting the basic principles of maintaining existing tenures and rights, the following objectives will direct the short and long-term management of the area:

- to maintain the natural qualities and conditions of the park
- to foster relationships with First Nations through ongoing consultation and discussion of their concerns and views on protected area management and planning
- to maintain the visual setting of the falls for recreational and tourism values
- to allow for continued casual recreation use with opportunities for viewing the falls from various vantage points in the valley  
⇒ do not emphasize recreation and make no provisions for public access and use of the site

### **F. Longer Term Issues and Concerns**

Specific issues that will be considered in the longer term can be highlighted under the following topics:

#### **Conservation**

- inventory of conservation values
- visual management - co-ordination with Ministry of Forests and Canadian National Railway

#### **Recreation and Tourism**

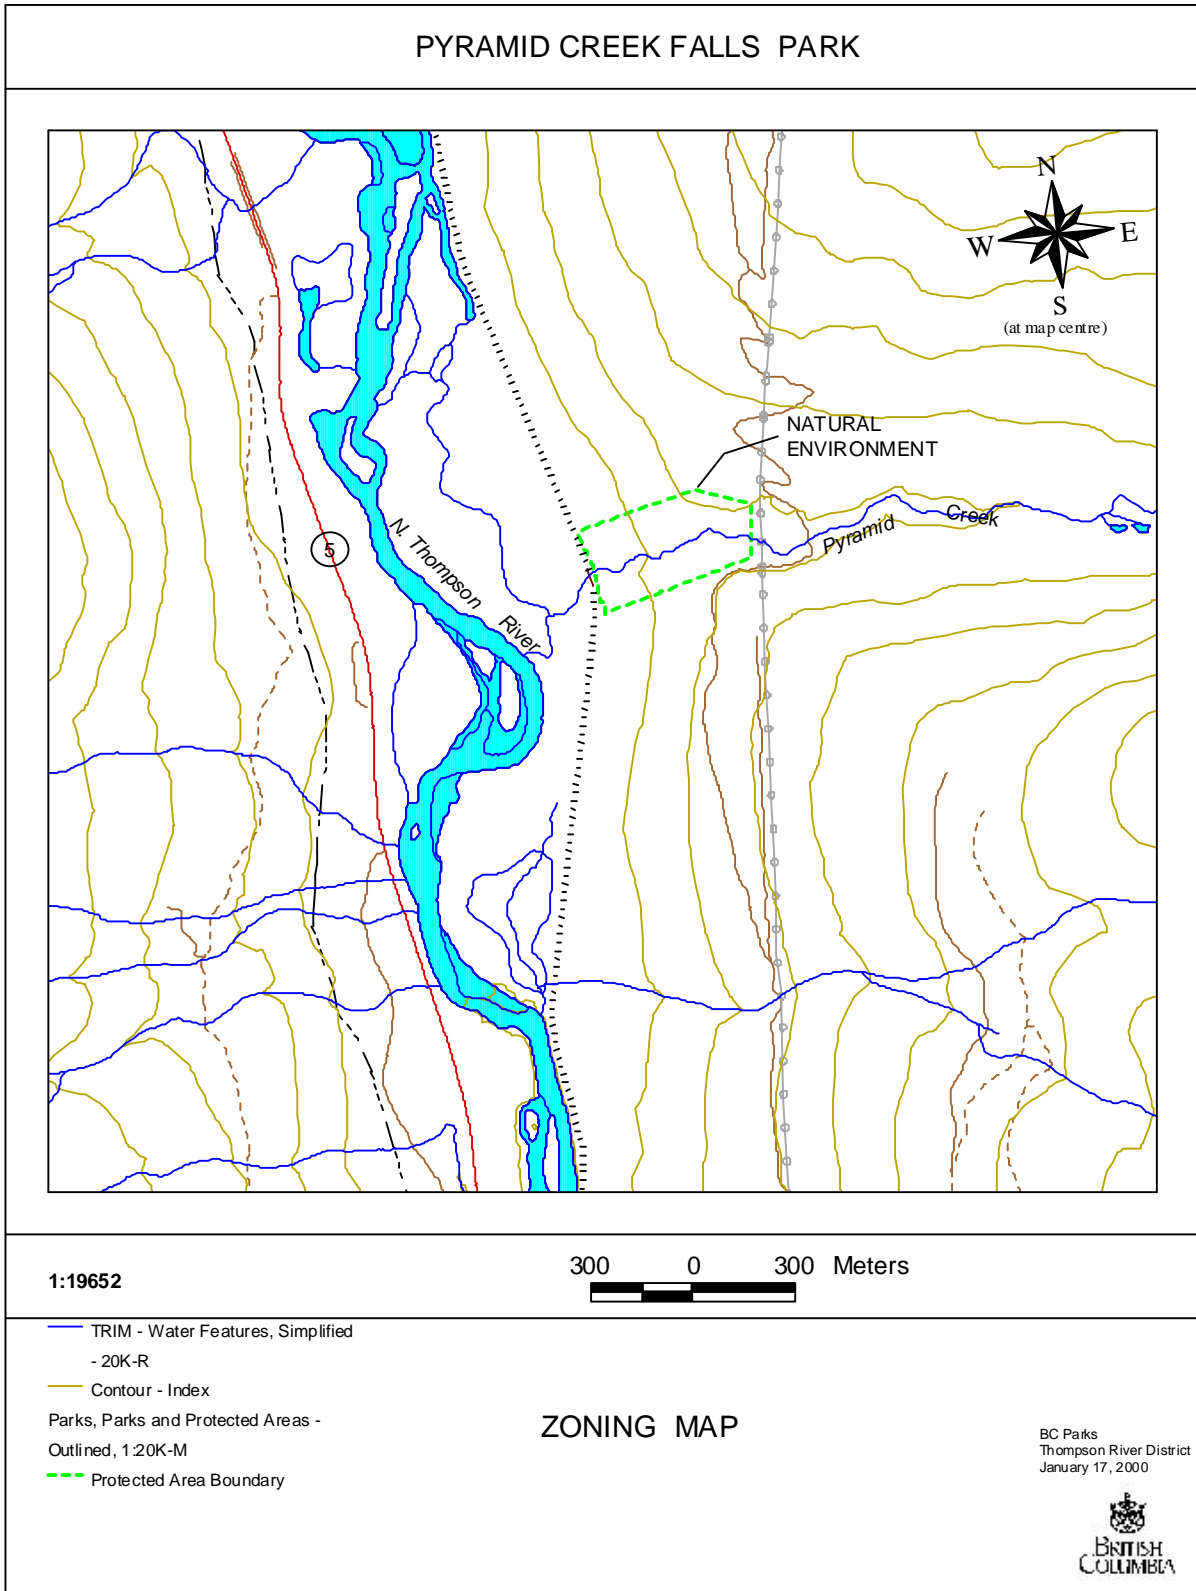

- recreation use - identify and co-ordinate with other agencies opportunities to view the falls from safe vantage points in the valley bottom

#### **Culture**

- inventory of archaeological sites
- protection of archaeological sites
- recognition of any identified traditional native uses

**Figure 2 - Zoning Map**

**G. Short Term Issues and Concerns**

The following Activity/Use Matrix outlines guidelines for managing uses, activities and facilities in the Park. These guidelines reflect the intent of the LRMP and, in general principle, follow the policies as set out for use and management of provincial park natural environment zones.

## Appendix - Activity / Use Matrix for Pyramid Creek Falls

Activity/Use Facility	Natural Environment
Hunting	Y
Fishing	Y
Trapping	Y <sup>2</sup>
Grazing (domestic livestock)	N
Recreational Gold Panning/Rock Hounding	N
Utility Corridors	N
Communication Sites	N
Horse Use/Pack Animals	N
Guide Outfitting (hunting)	Y <sup>2</sup>
Guide Outfitting (fishing)	Y <sup>2</sup>
Guide Outfitting (nature tours)	Y <sup>2</sup>
Guide Outfitting (river rafting)	N/A
Cat-Assisted Skiing	N/A
Ski-Hills	N/A
Heli-skiing	N/A
Heli-hiking	N
Tourist Infrastructure - Resorts	N/A
Backcountry Huts / Lodges / Cabins / Guest Ranches	N/A
Water Control Structures	N/A
Fish Stocking and Enhancement	N
Road Access	N
Off-road Access (snowmobiling)	N
Off-road Access (motorized)	N
Off-road Access (mechanical activities)	N
Motorized Water Access	N
Aircraft Access	N
Fire Management (Prescribed) Wildlife Management Prevention & Preparedness Prescribed Fire Management	N1
Fire Management (suppression)	Y
Forest Insect / Disease Control	N1
Noxious Weed Control	Y
Exotic Insect / Disease Control	Y
Scientific Research (specimen collection)	N1
Scientific Research (manipulative activities)	N1

Y= allowed, subject to conditions identified in the interim management statement or management plan  
 N= not allowed  
 N1= allowed for expressed management purposes only  
 N2= not normally allowed, but if present at time of PA establishment, will normally be allowed to continue

<sup>1</sup> Road access plan for this area designates open and closed roads  
<sup>2</sup> By permit only  
<sup>3</sup> On designated trails only  
<sup>4</sup> On designated lakes only
