

STRATHCONA PARK PUBLIC ADVISORY COMMITTEE

AMENDMENTS TO MINUTES – JUNE 1, 2007 – dated September 25, 2007 (wgibbons)

- 2. Confirm/Review Previous Minutes (Feb 16, 2007) –

Barb has questions about these minutes. Will there be delays in accessing the Bedwell Lake trail when the road is being upgraded? Andy will provide more information later, but there will be a light system implemented to control traffic. (*Light system meaning traffic lights. NVI will advise of proposed safety precautions as their plans are finalized*).

- 5. Marmot Re-introduction update

The Vancouver Island Marmot notes from Don Doyle were sent out to committee member. **Notation required to state this was never done. (Warrick Whitehead)**
(*Miscommunication – Andy thought Gary was forwarding these to other SPPAC members. Andy has since sent out all updates as requested*)

- 5. Forbidden Ski Hill Degradation and potential impact on Strathcona.

Number sequence requires change.

6. Forbidden Ski Hill Degradation and potential impact on Strathcona.

- 6. New Membership

Number sequence requires change.

7. New Membership

- 9) CWR PUP – 9:00 p.m.

Paragraph 10 –

John Wilson said the CWR proposal was an opportunity to provide a trail, and that horses and bikes may be the price to pay for this even if it is against the master plan.

John Wilson has contacted us and informed BC Parks that he did not make this statement – perhaps someone else made the comment.

Paragraph 21 –

John wants to see another round of public meetings as recommended as the previous SPPAC meeting.

John Wilson has contacted us and informed BC Parks that he would like the statement replaced as follows: John thinks the open houses are discredited and wants to see a round of public meetings as recommended at a previous SPPAC meeting.
