SUKUNKA FALLS PROVINCIAL PARK Purpose Statement and Zoning Plan

Primary Role

The **primary** role of Sukunka Falls Provincial Park is to provide day use recreation and viewing opportunities at a series of three waterfalls along the Sukunka River. Sukunka Falls Provincial Park is located approximately 45 km south of Chetwynd via the Chetwynd-Tumbler Ridge Highway and the Sukunka Forest Service road.

Known Management Issues	Response
Mountain Pine Beetle infestation is present in the park.	Conduct ongoing fall and burn program in cooperation with Ministry of Forests
Public safety – the hiking trail to the falls is in poor condition due to erosion.	 Upgrade hiking trail to repair existing and prevent future erosion damage.
Forestry and oil and gas development on adjacent lands is likely.	 Work with MoF and Oil and Gas Commission to ensure that park values are protected

Zoning

The entire park is zoned Special Feature. Management will focus on providing day use recreation opportunities centered on viewing the falls. This park is closed to hunting.

	Conserva	ation		
Representation - ecosection		Sukunka Falls Provincial Park protects a very small portion of the Hart Foothills ecosection. 4.8% of this ecosection is protected throughout the Province, and Sukunka Falls contributes just over 1% to that total. Gwillim Lake and Wapiti provincial parks contribute the majority (over 87%) of protected areas system representation of this ecosection.		
biogeoclimatic subzone/variant		Sukunka Falls Provincial Park provides representation for the BWBSmw 1 (Boreal White and Black Spruce, moist, warm) variant, which is only 0.68% protected in the Province. Sukunka Falls contributes 1.7% of that total.		
Special Feature	\boxtimes	Unique series of waterfalls and rapids		
Rare/Endangered Values				
Scientific/Research Opportunities				
Recreation				
Representation Backcountry Destination Travel corridor Local recreation		Opportunities for nature appreciation, angling (arctic grayling, bull trout, Rocky Mountain whitefish, and rainbow trout) and some non-motorized boating (kayaking, canoeing) on the river		
Special Opportunities				
Education/Interpretation Opportunities				
Cultural Heritage				
Representation		Unknown. This park lies within the area traditionally used by the First Nations of Treaty 8.		
Special Feature				

Other Management Considerations

Other Designations	
Relationship to other PAs	
Collaborative Management Arrangements	This park will, once the agreement is signed, be subject to the Memorandum of Agreement respecting the management of provincial parks between the Government of BC and the Treaty 8 First Nations.
Partnerships	
Vulnerability	
Relationship to other Strategies	
Area:	360 hectares
Date of establishment:	July 30, 1981
